

Subject Champions at Kehelland School

At Kehelland Village School subject leadership is shared between staff, who actively love and fully champion their subjects. For this reason we call our subject leads “Subject Champions”. Each staff member has several subjects that they champion, paying close attention to the quality of learning, progression, passion and retained knowledge and skills.

Overview of staff responsibilities including Subject Champions –

To enable staff to ensure their subjects are developed and embedded properly throughout the school we will follow a three year prioritisation plan. We will endeavour to complete these plans sooner, however in balancing workload and mental health it is essential we take a sustainable and qualitative approach to this work.
